Quickly set up a work environment with Forsyte I.T. Solutions to maintain productivity, adhere to compliance regulations, and keep your people and data secure while you work remotely during this time of uncertaintly.

ONEDRIVE & MICROSOFT TEAMS QUICKSTART

Combating COVID-19 in your school

Preparing for the possibility of a pandemic, U.S. schools and universities are starting to talk about what online learning could look like in the event that physical campuses need to be shut down over growing coronavirus infections.

As the number of confirmed cases of the new coronavirus rises across the United States, hundreds of academic institutions have shuttered, with major universities shifting to online coursework to protect their students.

Microsoft and Forsyte provide customers with a quick and easy rollout of OneDrive and Microsoft Teams to streamline communication and collaborate remotely in this time of uncertainty.

GET YOURS NOW!
Microsoft is offering O365 licenses free for 6 months

Forsyte will deliver a Quickstart to:

- Gather data needed to create a Teams engagement strategy and provide a summary of Engagement
- Help schools understand how to run remote classrooms (Teams + LMS), train users, and support them.
- Rush IT Governance to address the priority of educators, teaching and staff working remotely.
- Offer supportive documentation and tutorials to guide students in downloading and using the Teams app

Get the Benefits of OneDrive and Microsoft Teams:

- Open, Store & Work Together: No additional software or authentication needed to open, store, and share Office files with Office online, the Office desktop apps, and Office mobile apps.
- Easily collaborate: Multiple users can simultaneously edit Office files stored in OneDrive, with Office 2016 on the desktop or Office Online on a browser.
- Search & Track: O365 supports threaded comments from within your Office files and the note-taking app, OneNote is an integrated part of Office 365.
- Securely collaborate: Microsoft Teams is built on Office 365 groups, Microsoft Graph, and has the same security, compliance, and manageability as the rest of Office 365. Teams leverages identities stored in Azure Active Directory (Azure AD).

Let us help you set up OneDrive and Microsoft Teams to connect your faculty, staff, and students and take full advantage of the remote functionality for your organization.
